Robert E. Brackett serves as Senior Vice President and Chief Science and Regulatory Officer at the Grocery Manufacturer's Association (GMA). GMA represents the world's leading food, beverage and consumer products companies. The Association promotes sound public policy, champions initiatives that increase productivity and growth and helps to protect the safety and security of the food supply through scientific excellence. Dr. Brackett oversees all of the association's scientific and regulatory activity, including the operation of its in-house food safety laboratory.

Prior to coming to GMA, Dr. Brackett served in various positions within the U.S Food and Drug Administration's Center for Food Safety and Applied Nutrition, eventually attaining the position of Center Director. As Center Director, he provided executive leadership to the Center's development and implementation of programs and policies relative to the composition, quality, safety, and labeling of foods, food and color additives, dietary supplements and cosmetics

From 1994 until 2000, Dr Brackett served as Professor of Food Science and Technology in the Center for Food Safety at the University of Georgia, where he was an active researcher in the area of food microbiology, specializing in microbiological safety of foods. Dr. Brackett has also served on the faculty of North Carolina State University where he held the title of Extension Food Safety Specialist and Assistant Professor. Dr. Brackett received his B.S. in bacteriology and his M.S. and Ph.D. in food microbiology, all from the University of Wisconsin-Madison.

Dr. Brackett has served elected leadership positions in several professional associations, and is a Fellow of the American Academy of Microbiology and the International Association for Food Protection. He is also the recipient of numerous professional awards and serves on the Advisory Boards of the National Center for Food Protection and Defense, and the National Center for Food Safety and Technology.
